Deafness Cannot be Cured

By local applications, as they cannot reach the diseased por- tion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an in- flamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or im- perfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dol- lars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

The Farmers' Institute.

COLUMBIA, Mo., Oct. 31.

Editor Herald:

In answer to the request of a petition signed by a number of your citizens, a farmers' institute meeting will be held in Jackson on Monday and Tuesday, Novem-ber 18 and 19.

There will be present to lec- ture the first day, Dr. D. F. Luckey, state veterinarian, and W. L. Howard, horticulturist; second day, T. I. Mairs, assist- ant in agriculture, C. H. Eckles, professor of dairy husbandry, and some one representing the state educational department.

Our meetings so far this year have been excellent and from the reports that I have received from your part of the state of the interest the farmers are taking, I think the meetings in southeast Missouri will be no exception. Very truly yours,

GEO. B. ELLIS, Secretary.

Attention.

Everyone likes good music, and a good instrument is one es- sential for good music.

Call on or write W. L. Wilkin- son, of Sikeston, if you desire a first-class organ or piano.

The Fruitland Road.

Jackson should have good roads leading in from the country if it expects the country patron- age, and one road is very much in need of repairs, and that is the road between here and Fruitland.

The county court has done its part by arranging to build a bridge across Hubble creek, and the country people will do their part in helping make this road, therefore it is left for our mer- chants and others to add their share in this laudable enterprise. Every merchant and business man of Jackson should give either in money, work or ma- terial to this undertaking, and let us have a first class road between Jackson and Fruitland. Good roads leading to a town or city is what helps to build them up.

Notice.

The undersigned has a first- class well drilling machine (the same that drilled the test for lead at Gravel Hill), and is pre- pared to drill wells north of Jackson. For particulars apply to C. F. Hahs, Daisy, Mo. 5
